

AMENDMENTS TO THE SPECIFICATION:

Please replace the paragraph [0039] with the following rewritten version:

-- *Positional Relationship between Transporting Members ~~Member~~* --

Please replace the paragraph [0055] with the following rewritten version:

-- For example, it is not essential that the central conveyor extends throughout the inspection line. More specifically, the central conveyor does not have to extend through the ends of the discharge conveyor and the feed conveyor as in the above-described ~~above-describe~~ embodiment. Instead, the central conveyor only needs to extend beyond the border between the measuring conveyor and the feeding conveyor, and the border between the measuring conveyor and the discharge conveyor. --
